Summary

Software Engineer with 2+ years of experience in developing scalable web applications using Node.js, Express, MongoDB, and React.

Skills

Backend: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT, OAuth2, Razorpay, AWS SES & S3, Redis (basic), Kafka (learning), RabbitMQ (learning), MVC architecture, socketIO

Frontend: React.js, HTML5, CSS3, TailwindCSS, Bootstrap, Redux Toolkit, Zustand, Axios, shadCn, Three.js

DevOps & Tools: Git, GitHub, Postman, Docker (basic), CI/CD (learning), VS Code, Linux CLI, PM2, AWS EC2.

Database & Hosting: MongoDB Atlas, AWS RDS, Render, Vercel, Netlify

Soft Skills: Clean Code (DRY, SOLID), Agile Methodology, Team Collaboration, Documentation

Experience

I-Pangram | Fullstack Developer | Remote | Dec 2023 – June 2025

- Integrated Razorpay payment gateway with custom proration logic for subscriptions and created role-based dashboards (Admin, Reseller, User) with analytics and video stats.
- Developed RESTful APIs using Node.js, Express.js, and MongoDB; implemented secure storage with AWS S3, and handled transactional emails using AWS SES.
- Built a 3D Editor for Metaverse using React Three.js to place AR/VR objects; implemented a real-time viewer experience with Socket.IO supporting multi-user interaction.
- Designed backend logic to store and retrieve 3D object data (position, rotation, structure) from MongoDB, enabling consistent and synchronized virtual environments.
- Created a freelance platform module with Next.js and NextAuth for authentication; built a user listing with MongoDB aggregation filters and real-time chat functionality for recruiter–employee interactions.
- Ensured clean, modular code with reusable architecture across multiple projects, improving scalability and team collaboration.

Freelance Projects | Fullstack Developer | Remote | Dec 2022 – Nov 2023

- Delivered small to mid-scale MERN stack projects for clients involving admin panels, dashboards, and basic CRUD systems.
- Managed full-stack development and deployment using Render, Vercel, and Netlify.
- Wrote clean and maintainable code following industry best practices.

FunctionUp | Backend Developer Trainee | Remote | May 2022 – Sept 2022

- Created REST APIs using Node.js, Express, and MongoDB with a modular design.
- Developed frontend components with ReactJS for admin and user dashboards. Integrated AWS SES for sending verification emails and S3 for file handling.
- Collaborated in team projects using Git, GitHub, and Agile workflows.

Projects

Book Management | Github-link | Oct 2022

- **Backend Development:** Built using AWS S3 for storing book cover images.
- **Admin Dashboard:** Developed a user-friendly interface for managing book data.

Education

Bachelor of Engineering (B.E.) in Electronics & Communication Engineering

SNP Institute of Technology & Research Centre, Bardoli – Gujarat Technological University (GTU)

2014 – 2018
